EXAMINER'S COMMENTS

Response to Arguments

1. Applicant's arguments filed 4/6/2005 have been fully considered and are persuasive.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: the prior art could not alone or in combination anticipate or make obvious a method of wrapping groups of cigarettes whose outer layer is narrower than the adjacent layer, the method comprising feeding the group into a folding pocket, clamping the group inside the folding pocket with two end clamping members, both the end clamping members having an appendix which engages the end of a lateral gap, folding the lateral portion of a wrapper sheet around the group and the appendices, then extracting the clamping members from the wrapping.

The most pertinent prior art, TALE ET AL, discloses a packaging method for cigarettes but does not disclose clamping the group of cigarettes inside a folding pocket with two end clamping members, both the end clamping members having an appendix which engages the end of a lateral gap, folding the lateral portion of a wrapper sheet around the group and the appendices, then extracting the clamping members from the wrapping.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
